Leroy:

Could you see if SWSES is interested in any of the vacuum boxes that are owned by CES? If so, they would need to follow the directions indicated below. Otherwise, I will talk to C4 Environmental or IKON Environmental.

Thanks

Subject: Vacuum Boxes

Pursuant our earlier conversation concerning the fate of the CES owned Vacuum Boxes post the removal of the waste, I have discussed the issue with the Trustee. He has agreed that Vacuum Boxes can be swapped in exchange for the cleaning and removal from the location under the following conditions:

1. All the CES Vacuum Boxes must be included in the swap.
2. All waste generated by the cleaning activities must be disposed of at the cleaners expense.
3. The Trustee must receive copies of the disposal manifest and cleaning certificates.

Should any of your contractors wish to enter into an agreement have them contact me that way the EPA has no involvement in the transaction. I personally feel that this would be the fastest way to get the Boxes removed from the site. Call me if you have any questions.
